Representative Clay Higgins (R-LA)

Investigative journalist Lara Logan released the latest episode in her much anticipated investigation into the January 6, 2021 “Fed-surrection” today on [Truth in Media](#) website.

In her latest episode, Logan brings on former Louisiana police officer and current US Congressman Clay Higgins to discuss the events that tragic day back in January 2021.

Representative Higgins is famous for [confronting FBI Director Chris Wray](#) back in November 2022 on the confidential human sources dressed as Trump supporters INSIDE the US Capitol on January 6, 2021.

In November 2023 Rep. Higgins confronted Chris Wray again about the FBI’s confidential human sources that were brought to the January 6, 2021 protests. But this time Clay Higgins [brought a photo](#) of the government assets boarding buses before the rally.

Rep. Clay Higgins (R-LA) releases photo of alleged FBI “ghost buses” in Union Station on Jan. 6, 2021 during questioning of FBI Director Chris Wray on 11-15-2023.

On Thursday Lara opened the interview with a questions on the letter Rep. Benny Thompson sent to DHS following the January 6, 2021 protests. According to Rep. Clay Higgins this resulted in innocent Trump supporters being placed on the terrorist watch list. This practice still takes place today.

Rep. Clay Higgins: was the beginning of a executive action by the TSA to use its authority to instruct America’s air marshals to track and follow Trump supporters that have been charged with no crime. They were guilty only of arriving by air into DC on January 4, 5th or 6th, and those manifest were turned over to the FBI. The FBI went through those manifests and every American that they identified, that the FBI identified as a Trump supporter that was on those manifests was added to the FBI’s suspected domestic terrorist watchlist... The TSA administrator used his authority to instruct the air marshals of America to track those Americans wherever they fly. Still today, it’s still happening.

The letter was signed by top Republican **Rep. John Katko**. He approved of this.

This has been going on since January 2021.

Rep. Higgins then makes this promise—

Rep. Clay Higgins: “I’m telling you, we’re in uncharted waters as it relates to the weaponization of our government against the American people. I am not frightened of these people. I’ve spent my life serving others, and I love my country. This thing is not going to just slip away. They’re not going to take us without a fight. I’m going to fight legally and peacefully and within the parameters of the constitution that I’ve sworn to serve. But they’re going down. These men and their high perch and their position of power and authority that are walking upon our entire history, our deepest core principles. They’re not going to get away with it.”

This was an exceptional video – only at Truth in Media.

Clay Higgins brought his investigative skills from the streets of Louisiana where he was a cop for years to the halls of congress, where he’s been investigating January 6th ever since it happened.

We sat down for a tough, far-reaching interview to explore what he’s learned...
