

December 5, 2019

I hope you get this material in time to make a difference.

Some of us have learned some critically important information that you need to be aware of regarding the USMCA and, hopefully, that you can share it with fellow leaders and President Trump. We fear that you and President Trump are being deceived by some of his closest advisors regarding what is really in the USMCA agreement. The devil IS in the details. This one agreement could undermine ALL of the terrific things this administration has done for our country. After thorough review, I am sure you will agree that the USMCA, in its current form, could plunge our country and its citizens into a globalist North American Union like the European Union. This would mean open borders and the loss of our Constitution, freedom and way of life...maybe not under President Trump's watch, but certainly others.

If you need additional materials, let me know. Please do not pre-judge the material as unreliable because of the source. Like most who try to defend our Constitution/Bill of Rights, expose tyranny and end corruption, The John Birch Society has a history of being demonized. However, they have been proven truthful time-and-again over the last 60+ years. Their information is well researched and vetted and many of their leadership, members and supporters are highly regarded for their expertise and achievements ...including members of Congress and Medal of Honor winners.

Some of the information may be hard to believe. However, the truth can often be stranger than fiction. See my website for more info:

If you need additional information or clarification, please contact The John Birch Society. Thank you in advance for your time considering this vital info. Please continue to protect and serve our great country and we'll do the same.

Best wishes!
