WATCH: DeSantis is currently hosting a roundtable with lawyers. One of the lawyers is named Libby Locke, she represents Dominion Voting Machines against Lindell, Giuliani, & other conservatives.

He says Libby is an “extraordinaire at first amendment, defamation law.” 😏

It's official! Gov. Ron DeSantis has lost his mind.

On his new streaming platform, Gov. DeSantis hosted a roundtable of lawyers, where he praised attorney Libby Locke, of ClareLocke firm, THE Dominion Voting

Machines ATTORNEY who is literally going after me and my company! Libby Locke is the exclusive lawyer targeting conservatives like Rudy Guilianne, Joe Oltmann and other leaders, throwing defamation lawsuits at them for their statements against the Dominion voting systems! It seems impossible that Gov. DeSantis is propping up this attorney who has used her firm to silence those talking about elections and calling it libel!

***If Gov. Ron DeSantis is really running for president, his campaign just ended before it started!***

As we show in "[Unmasked: Has the truth about the 2020 election been uncovered?](#)," Dominion's voting machines played a major role in the wild statistical abnormalities of the 2020 election, which resulted in Joe Biden's supposed "victory."

Wisconsin, Georgia, and Michigan saw ridiculous vote spikes that conveniently put Joe Biden in the lead in the middle of the night on Election Day, even though vote counting had supposedly stopped. Things were so suspicious that many Democrats now believe Donald Trump's 2020 election was stolen from him.

Cyber security experts signed sworn affidavits stating that Dominion's faulty machines used an unencrypted VPN to transfer data and were being monitored, in real time, by China! Dominion machines were connected to the internet. We can't allow this interference anymore.

**This is disgusting watching Governor DeSantis work with Dominion's legal team to silence our first amendment rights! I'm watching him work on behalf of Dominion and their targeting of good people to silence them. Is Desantis really going to help them sue regular people for defamation-removing their first amendment protection of free speech? What is DeSantis doing?**

We started the Lindell Legal Offense Fund to have world-class lawyers and election-law experts fight on the ground to stop stolen elections. We've hired the best cyber experts in the world. We are seeing great results of our long 2 year battle!

\*We are leading the charge in every state to end the illegal voting machines that are being connected to the internet.
