

PROFESSOR ANTONY SUTTON

It's very likely that you've never heard of this man. Please read the information that follows to understand his significance to the cause of freedom in America and around the world. He was born in England, graduated from the University of England. In 1952 he moved to Canada to work at a mining exploration operation. By 1962 he became a U.S. Citizen and from 1963-1968 he was a professor of economics at California State University. Then he was invited to be a Research Fellow at the Hoover Institution at Stanford. He was an internationally known Academic Researcher and author. Thus far he had led a very successful and uneventful life in the academic world but all this was about to take a rather bizarre and radical change.

In 1958 after attending a conference in Salt Lake City he was preparing to return home when a sudden snow storm shut down the airport. Rather than waste time he decided to read a book he had recently purchased. It was Leon Trotsky's history of the Soviet Union during the 1920s. **Trotsky related that he was in charge of arranging for American and European Bankers and Industrialists to help industrialize the fledgling Communist Dictatorship. Sutton was astounded because in all his years he had never read of this in any trade journal or history book. Furthermore, why would anyone in the Free World want to help Communists who continually rant that their ultimate goal is to destroy all Capitalists?** Because Sutton was a well recognized scholar from the Hoover Institution he was given permission by the U.S. State Department to research their archives and he spent several years to confirm or debunk Trotsky's claims. By early 1960 he had, *to his own amazement confirmed all that Trotsky had said*, and began writing a series of books about this. The first volume '**Western Technology and Soviet Economic Development 1917-1930,**' published in 1968, **with the same title he published volume two covering 1930-1945 in 1971, and the final volume covering 1945-1965 in 1973.** Once again he was faced with another strange situation: *the leading trade journals and major media book reviewers were ignoring his revelations. Just as the West's aid in building up the Soviet Union had been suppressed; now, once again, his monumental work was also being given the silent treatment!* Sutton next determined that he must inform the American people and he wrote '**National Suicide.**' Once again our major media and book reviewers ignored this work, but Conservative publications gave it widespread publicity. It is a **must read book** for anyone who is puzzled and therefore concerned by what is and has been going on in Washington. During the years he was mining our State Department Archives he had uncovered an enormous wealth of information about other events that were done without the public's knowledge and he next wrote his famous trilogy.

In 1974 he published '**Wall Street and the Bolshevik Revolution,**' then '**Wall Street and FDR**' in 1975, and '**Wall Street and the Rise of Hitler**' in 1976. With *irrefutable documented factual evidence* he exposed how *prestigious Wall Street Lawyers and International Bankers, Super Rich Industrial Giants, and politicians 'owned by them'* had been financing and building the Soviet Union, *and just about every other Communist regime and even Hitler!* Even though these facts had intentionally been kept from the American people Sutton maintained that it could not be called a conspiracy because many of their nefarious transactions weren't carried out in total secrecy. **The fact that our alleged watch dog media never reported it to the public failed to convince him that something far more sinister was going on behind the scenes.** Over and over again he noted that many of these men were members of '**The Council On Foreign Relations**' (CFR) and accepted it as merely being an organization of wealthy businessmen who were willing to do anything for profit. He stuck to this opinion until he received a package of documents which at last opened his eyes and

only then was he able to put all the pieces of this bizarre puzzle together.

In the preface of this book he states '*Then a year or so ago I received an eight-inch batch of documents nothing less than **the membership lists of an American secret society.** Glancing through the sheets it was more than obvious – this was no ordinary group. The names spelled **Power**, with a capital **P.** As I probed each individual a pattern emerged... and a formerly fuzzy world became crystal clear.'* It was later revealed that these documents were loaned to him by Charlotte Iserbyt. They belonged to her deceased Dad who had been a life long member of Skull & Bones. Her book, '**The Deliberate Dumbing Down of America,**' is quite large, thoroughly documented and very much related to this topic. The title of Sutton's book is '**America's Secret Establishment: An Introduction To The Order Of Skull & Bones**' Note that former President George Bush publicly stated that he couldn't talk about his membership in this secret cabal. It just so happens that his father and grandfather also were members. The reader is advised to view several interviews with Sutton available on U-Tube and read any of his books and then make your own conclusions. At last Sutton realized that it's nothing else but a '**Conspiracy,**' exactly what another organization had been saying for years.

The John Birch Society (JBS) has been exposing the **CFR** and its various other organizations started by or connected with them for many years. You are welcome to go on line to **jbs.org** and **www.TheNewAmerican.com** and view an enormous wealth of *documented factual information* that our media *intentionally* ignores, and you can purchase books and DVDs which are also given the silent treatment. Whenever **JBS** aroused public opinion about the **CFR** they quickly released press clips claiming they were merely a private group of businessmen with no connection to any branch of government. They indeed are a private group but quite a number of their members serve as *very influential advisers within our Federal government!* Additionally, it so happens that '**position papers**' published in their journal **Foreign Affairs** '*often*' end up becoming the '**Official Policy**' of our **Federal government!** Well low and behold, one of them '*let the cat out of the bag*'. In 2002 **David Rockefeller** published '**Memoirs**' and made the following admission on page 405: 'Some people even believe we are part of a secret cabal working against the best interests of the United states, characterizing my family and me as "internationalists" and of conspiring with others around the world to build a more integrated global political and economic structure – one world, if you will. **If that's the charge. I stand guilty, and I am proud of it.**' Such a brazen treasonous admission should have been front page news but again it was ignored by all our media. Why? Well back in 1915 **J.P. Morgan**, a founding member of the **CFR**, and 12 cohorts, very prominent newspaper publishers realized that *a friendly press could help keep the public in the dark; so they bought the controlling stock in 25 of the most influential papers in the U.S.* Today the **CFR's** control has spread like a cancer throughout our nation and around the world. The fact that papers like this can still be distributed is proof that they haven't obtained absolute control over our nation.

We invite you to carefully examine our web sites, purchase DVDs, read books that are denied publication by **CFR controlled** publishers, and read **The New American on line** to get the *rest of the story*; then consider joining us in our epic struggle to restore our **Republic by re-establishing our Constitution as our only rule for government.** **JBS** has defeated many of their schemes over the years but we need others to help us win this battle. Our motto is: **Education is Our Total Strategy and Truth is Our Only Weapon; and with God's help we can expose and rout this evil cabal!**

Please make copies of this to hand out or mail to friends. Edmund Burke said "**All that is necessary for evil to prosper is for good men to stand by and do nothing.**" Let us not be chargeable with such a dastardly crime of refusing to expose these wretches while we still retain the liberty to do
